Short Description *by Marya*

Description *by Marya*

Songs of Sacred Names reveal deep feelings of Love that stir the soul towards inspiration and sanctification. The vibrations reverberate within the body, and add to the opening of the thresholds bringing an awakening of energy that is inherent to the Mysteries of Light. The voice expressed through the words, is the same voice that wants to be expressed through the hearts of all sentient beings activating the trinity of the body, mind, and spirit.
