Description

by Pieter Volger & Pia Raum

Pieter Volger's stirring music marries the vibrations of the soul with the joy of the human heart. The words selected in this CD express the spiritual themes of the world: The Name of the Divine Father known to the prophets as *Yahweh* which emanates through the *Brotherhoods* and *Sisterhoods* of Light. These *Brotherhoods* are the *People of the Covenant* who indwell in a *Twelve-fold creative order* of divine reason and await the new horizons of Space-Time. Horus on the Horizon, *Horemakhet*, is understood as introducing the possibilities of new worlds.

In short, Volger's music guides one to spiritual upliftment and a new state of being, that moves us closer to being embraced by the sons and daughters of God.

Music for meditation.
