## Description

***Dr. J.J. Hurtak, Dr. Desiree Hurtak and Dr. Rupert Sheldrake***

We are living through one of the most fundamental shifts in history – a change in the actual belief structure of Western civilization. What will guide our thinking in the challenges of the 21st Century? A conscious way of perceiving the world around us that accommodates both spirituality and the new sciences.

In a world of reshaping philosophies, this is a wonderfully concise overview of consciousness according to the new sciences, along with special guided meditations and affirmations for living.

DVD-Set: 5 hours 42 minutes
